

To our wheelchair-bound guests,

Sorry about the three steps !

We have worked hard to find a permanent way round this obstacle but sadly they remain a barrier until we do major structural work.

To negotiate these steps we have **three solutions** to offer you :

The quick (and recommended) one : We will assist you down the ramp in our lounge pantry – a short length back of house, but very speedy.

The slow one : We will place ramps over the reception steps – please accept a delay while this is being done.

The long one : We can escort you through the garden and round to the back door of the hotel next to the restaurant.

Please let us know which suits your needs best both for the **way down** and for the way **back up** at the end of your visit.
